# NEW NATIONAL GHS CLEANING CHEMICALS LEGISLATION

## WHAT IS "GHS"?

The Global Harmonised System (GHS) is internationally used to standardise and harmonise the classification and labelling of chemicals - including cleaning chemicals.

## WHEN DOES THE "GHS" LEGISLATION TAKE EFFECT?

After 5 years of preparation, the new laws came into force in most states of Australia on 1st of January 2017, with Victoria to commence on 1st of January 2018. This matter is covered under the Work Health & Safety regulations in all States. Breaches will be handled in the same manner as for other Work Health & Safety matters.

## WHAT DOES "GHS" MEAN FOR YOU?

From 1st of January 2018, all labels on all cleaning chemicals that are sold into childcare centres must have appropriate "GHS" pictograms present on the label. All wording on labels must also be compliant with standard GHS hazard and warning statements. This is a regulatory workplace health and safety requirement.

## DO SOLO PAK PRODUCTS MEET THE "GHS" FOR THE CLASSIFICATION AND LABELLING OF CHEMICALS?

Yes. Solo Pak are an Australian owned company, who have been manufacturing cleaning chemicals for over twenty years. They specialise in products suited to the childcare industry and have been at the forefront of ensuring their product labelling meets the stringent "GHS" guidelines.

Solo Pak manufacture a range of super concentrated cleaning products that are easy-to-use, cost-effective, non-hazardous, environmentally friendly and suitable to use around children.
