An investment that LASTS

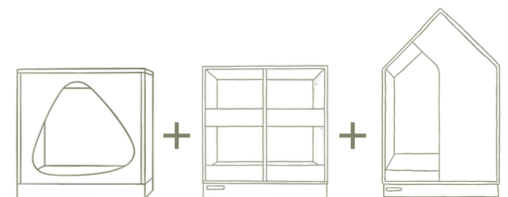

Modular by Design

Curiate Furniture offers consistent dimensions across its range, allowing units to be easily mixed, matched, and rearranged to suit various spaces and age groups. This enhances flexibility and adaptability to changing needs. The custom configurations also enable space optimisation, allowing you to rethink and respond to your learning environments effectively.

Flexible Aesthetic

With soft colourways, concealed fixings and a clean, minimal form, Curiate fits naturally into a wide range of centre designs and alongside existing furniture. Designed in a modern colour palette featuring birchwood, dove white and selected use of fern green .

- Dove White
- Fern Green
- Birchwood

Designed for Calm & Self-Regulation

The Curiate range is intentionally crafted to do more than provide storage or structure; instead creating environments to support children's emotional wellbeing, sense of security, and independence. With calming aesthetics, enclosed retreats and flexible layouts, it helps children self-regulate emotions, reset when overwhelmed, and return to engaged, focused play.

● Retreat Corners & Tunnels

Safe, enclosed spaces empower children to step away when they feel overstimulated, pause, and regulate their emotions, while staying connected to the learning environment.

● Calm Aesthetics

Neutral tones, natural textures and uncluttered finishes reduce visual noise, ease anxiety, and creates a calm backdrop for play and learning, further supporting a centre's overall atmosphere and complements educators' work in guiding group routines.

● Choice & Autonomy

Modular layouts offer real options, open zones for collaboration and quiet retreats for privacy. Children exploring these zones freely build decision-making, independence and confidence.

● Support for Educators

Providing ready-made zones for retreat and regulation, educators gain practical tools to manage group dynamics, meet individual needs and foster positive behaviour—without having to improvise.

About curiate

Our approach is simple: clean lines, durable materials, and modular systems that adapt to changing needs, prioritising sustainable practices and continually improvement.

Curiate exists to help educators create calm, beautiful learning spaces that support curiosity, creativity, and independence for infant, toddler, and preschool environments. We believe the environments children learn in shape how they think, feel, and grow. That's why we design furniture that is both functional and inspiring.

Early Educational Resources

Fast delivery

Stocked in our Melbourne warehouse and available to ship from February 2026. Whether you're looking to try a single unit before expanding or you need to furnish a new centre fit-out, Bellbird can accommodate your timeline and order volume.

Easy assembly

Designed for effortless assembly with fewer components and pre-assembled base units, you can easily put it together yourself, as every unit is made for one-person assembly.

Alternatively, Bellbird can facilitate the on-site assembly process for you ensuring a stress-free experience.

Furniture that feels as good as it functions — calm, purposeful, and built to last.

Durable by design

Crafted from sustainably sourced, high-grade birch plywood and finished on both sides with HPL for lasting durability.

Birch plywood is valued for its exceptional strength, while HPL offers impact resistance, a scratch-free surface, and easy cleaning. Together, they create a material built to withstand heavy use over time.

Laminated Surfaces

The High-Pressure Laminate (HPL) surfaces provide a hard-wearing, scratch-resistant, and easy-to-clean surface, making it ideal for active educational environments. Tough enough to withstand harsh chemical cleaners as required.

Hidden Fixings

No exposed screws or bolts interrupting the design, resulting in a seamless, visually calm aesthetic. This refined construction detail not only enhances the overall look but also contributes to a more premium, considered feel.

Rebated Joins

Rebated joins significantly increase the strength of the Curiate units and help to distribute the load more evenly across the joint, reducing stress on fixings. This craftsmanship improves both the aesthetic and durability of the range.

Recessed Mirrors

Mirrors in our range are recessed into the timber board, creating a smooth edge surface to eliminate sharp edges. For both safety and aesthetics, mirrors are intentionally glued and screwed, then finished with non-removable screw caps.

Recessed Base

All units have a recessed base at the rear to allow the furniture to sit flush against walls, even with skirting in place.

Opening a new service or ready to refresh your centre?

Stand out with Bellbird as your design partner. From concept to completion, we make it easy for you:

Our Process: Discover • Design • Deliver & Grow

- Discover - We listen to your vision and understand your needs.
- Design - Tailored 3D plans and curated resources aligned to EYLF.
- Deliver - Transparent quotes, reliable timelines, and on-time delivery.
- Grow - Ongoing support and guidance to keep your centre thriving.

CALL BELLBIRD TODAY AND TURN YOUR VISION INTO REALITY

Ready to simplify your resource selection? With Bellbird as your partner, you'll have expert guidance and curated solutions at your fingertips. Don't waste another day on catalogue overwhelm—call us now and let's build your next inspiring learning environment.
