Seasonal Natural Play Dough Kit

137146 \$49.95

Just add play dough, clay or any other modelling agent to utilise these resources. Objects have been selected for their play ability such as Australian native pods which have unusual shapes, textures and scents. Children can explore texture and transference through imprinting the objects images into modelling materials. Additionally, wooden modelling tools (knives and cutting board) are provided.

Wooden & Recycled Cardboard Flower Press

137140 14 x 14 x 6cmH \$24.95

Using this wooden press with recycled cardboard, is an easy way of preserving the beautiful colours and shapes of many varieties of flowers, herbs and leaves. Children will be able to press the items they found while out walking and exploring to create cards, drawings or other art projects.

Paper straws are by far the most environmentally friendly straw available, particularly when compared to plastic, as they breakdown faster and are safer for our marine environment. Made from a 3 ply premium food grade Kraft paper, with no waxes, and only 0.6% food grade glue, our range of paper straws can be universally considered compostable and biodegradable. These straws are FSC Certified (Forest Stewardship Council), so the paper used to make them is sourced from sustainable forests in a controlled environment.

LED Aroma Diffuser & Humidifier

Our beautiful aroma diffusers offer many functions that can benefit both health and wellbeing. Unlike traditional oil burners or incense, they don't require candles or matches so are a much safer option. Simply put 2-3 drops of essential oil in the water tank and plug in. This is then dispersed as a mist into the air and inhaled to energise or calm, depending on the essential oil chosen. The mist button stops automatically when the water is low. The humidifier generates moisture and negative ions from the water and steam which assist breathing, can provide allergy and sinus relief, and also cleanse and purify the air if using oils with antibacterial properties. The aroma diffuser also has a beautiful LED light function, emitting a calming glow which moves through different colours or can be set to a specific colour.

Note: Use essential oils that are safe for children as some oils are not safe when they settle on the skin and then are potentially ingested.

Automatic Foam Soap Dispenser

Good hygiene is essential for all childcare centres, kindergartens and schools. This Automatic Hand Soap Foam Dispenser has a sensor which reduces the possibility of cross contamination. Using the foaming soap dispenser is more cost efficient than liquid soap, as 0.4ml is dispensed each time allowing for approximately 2,000 washes per 800ml Foam Soap lotion pod (Sold separately code: 157291A). The disposable pods are very easy to load and the unit is lockable to prevent little hands from accessing the pod. When washing hands, simply place your hands underneath the sensor. The sensor will automatically activate the pump, which dispenses the soap. The unit is powered by 3 x C Alkaline batteries (Sold separately code: 124827) with extra low battery consumption when in standby and comes with screws and adhesive to attach to walls.
