MEET THE DEAN FAMILY BEHIND BELLBIRD

Trent & Angela with their 3 children Allanah, Emily & Jack.

John & Kaye (Enjoying Retirement)

Trent has worked in the business since 2003 originally with his parents John & Kaye Dean. When they retired in 2009 Trent & Angela bought Bellbird to carry on the family business into another generation with the ambition of leaving a legacy for their children and to continue to provide a solid workplace for their staff and their families.

Trent the youngest of 3 grew up with Bellbird when his parents bought the business when he was 9 nearly 30 years ago.....so where did the story of Bellbird originally begin?

There once was a man in a van named Mr Bell and his "bird" Robin which together started Bellbird. They travelled the town with a van filled with Art & craft, selling their wares to local kindergartens...

Year 1987

After a couple years in 1987 Mr Bell sold his van to John & Kaye Dean. This family of 5 had just said good-bye to their family run chicken farm to start a new business venture in the early childhood sector.

Trent has fond memories of the "Bellbird" shed on the family property in Langwarrin Victoria, where together with his brother and sister they earnt their pocket money by helping Mum and Dad out by dyeing popsticks, bagging up straws and decanting glue.....and Whoops as kids do, got distracted leading Kaye to then find a river of glue running down the driveway!

John would set out daily in the Bellbird van and continue to service the kindergartens on the Mornington Peninsula in Victoria with their art & craft needs. John was the epitomy of good old fashioned customer service whereby nothing was ever too much trouble, truly polite, unobtrusive service with a smile. This core value still holds strong today and is at the forefront of everything Bellbird. Kaye would work equally as hard answering the phone, picking orders, balancing the books, all whilst juggling the family.

Even Grandpa Jack would have a crack and put together the Bellbird drying rack!

After several years Bellbird had outgrown its shed and was on the move to a warehouse in Dandenong South with staff.

One man in a van had become several vans expanding their reach to all of Victoria.

Year 2000

In the year of 2000 Bellbird the Art & Craft Van amalgamated with a Toy Bus to further expand the range and we became Bellbird Kid-Z Educational Resources.

The next logical step it seemed was to try our hand in the "Back to School" stationery business to expand our current market and this is when things became rocky and Bellbird started to loose it's footing! This was a competitive price driven, labour intensive market and overruled by the majors.....it looked like "The Big Cats" were going to swallow Bellbird whole with their big corporate presence....BUT just like Tweety bird Bellbird fought back against the Cat and went back to what it does best... focused on our loyal customers in Early Education, the big and the small who remember fondly the Man in the Van!

This experience took its toll on the family, particularly John & Kaye who did their best to stay strong.....but in order for survival Bellbird needed a revival.

It was around this time 2003 that Trent left a successful career in Computer programming and joined his parents in the business. With a passion for systems and data analysis and the energy to strive towards goals Trent went about bringing IT to Bellbird. With an expanding product range in 2006 we became Early Education's ONE STOP SHOP. Bellbird put out it's first catalogue, our logo had a revamp and our Sales team evolved from reps in a van to consultant's in a station wagon.

Year 2009

In 2009 John & Kaye retired after a successful career in many family operated businesses from milk bars to chicken farms to Bellbird to enjoy Australia's great outdoors, play golf, volunteer at a local hospital and spend time with their 5 grandchildren. John will still lend a helping hand at times particularly on some of our larger start-up jobs.

Trent and Angela then took the leap and bought Bellbird. Trent with his inherited hard work ethos and a strong desire to continue to bring quality and customer service to the Early Education market not just in Victoria but Australia wide expanded Bellbird into a National company with an on-road team in South Australia and NSW. Trent hand selects all the products in the Bellbird range, with an emphasis on quality to stand the test of a roomful of enthusiastic youngsters... It helps that Trent is a big kid at heart and loves a toy fair where he will be seen on a supplier's stand jumping on and throwing a product around to put it through its paces, while watching the cringe on the supplier's faces.

Angela a qualified Occupational Therapist of 10 years left her profession and joined Trent on this epic journey in 2010. Our children have grown up with Bellbird always in their life, they feature heavily in the catalogue, test out products at home and even do some of the art & craft projects. A family business is never easy particularly when raising young children at the same time. As parents you face the fear & doubt that you are not doing enough, that there is more work than play but you stick at it because you want to do the best for your children but also for the staff we employ and their families. We often go to bed feeling the burden of it all but we make every effort to get beyond that and continue to move forward with new exciting products into the market and new technology whilst being true to the core values of hard work, honesty and good old fashioned customer service. We love what we do and hope that you will love Bellbird too

Outdoor Play

To nurture a childs love for water we believe it is important for them to play with it and learn about it. What better way to play than to have a great time pumping water using the included water pump and watching the water flow down the channels that the child has placed themselves. Using special hooks that lock into the wall the kids can then place the water channels strategically in the hooks to try and get the water back into the bucket without wasting any water. With the included pump the kids can learn how to minimize water wastage. The board and hooks are made from HDPE and the stand from aluminium creating a 100% waterproof rust proof product that will last years of play. Bucket not included.

WOODEN CRAFT SHAPES

Paint it, Nail it, String it.
Step 1. Select a colour for your string art base - and paint. Or leave plain for a natural look.
Step 2. Decide a pattern that you would like to create. Mark with a pencil as a guide. Then carefully hammer the nails in.
Step 3. Wind the string around, up, down and across, creating colourful patterns and shapes.
Note: As nails contain sharp points, adult supervision is required and nailing activity recommended for children over 4.

Kinetic Sand is a fascinating medium and playing with it is a magical and mesmerising experience! It appears like it's alive and moves by itself in a way that will make you want to keep touching it! Build it, form it, smooth it, slice it, mould it, break it and recreate it! The special properties make it soft and stretchy and it won't make a mess (sticks to itself but not to you). It never dries out, is non-toxic and anti-microbial.

Aboriginal Designed Recycled Mats

(made from recycled shopping bags)

These mats are designed using Indigenous symbols, the symbols are used as a form of communication, a way to tell a story, instruction or direction. The versatility, light weight durability of the recycled polypropylene play mats are only enhanced by how easy they are to keep clean. Simply vacuum up the spills, give the mat a quick wash with soapy water, then toss over the line to dry. Great for use outdoors, however do not leave in direct sunlight or rain full time due to UV exposure. Store clean and dry.

Trommus Drums

Since 1998, Trommus has contributed to the setting of new standards for drums used in the teaching of rhythmics. The drums have been developed by a teacher of rhythmics, focussing on sound, quality, and functionality. Based upon his own experience he set out to develop a drum that would meet the needs of the users, students as well as teachers. The result was a very sturdy drum that is easy to use by big and small, in a design that is easily recognized. The drums are inspiring and easy to work with, and are designed for storage within each other. They are handmade in Denmark using natural skin, and contain no harmful substances.

EVO 3D Visual Reality Books

These stories begin when you open the book. These are a future-oriented smart book combined with 3D augmented reality. You can move and feed the animals however the reader likes. The reader can have fun and learn while seeing, reading and experiencing the creatures inside the books! The set of seven contains these titles Dino, Ocean, Bird, Bug, Farm Animals, Wild Animals and Herptiles with a range of animals in each title. Simply download the free app to your device, point it at a book and watch the animal leap out of the book into 3D! Supports most Phones and Tablets. Children and adults alike will be captivated by the experiences and engagement possible as you move the animals, feed them, complete puzzles and learn where in the world they inhabit with a real moving globe! Age: 3+ yrs

Bring animals to life as they literally jump off the page! Feed them, make them walk, swim or fly. Make the Dog bark, the Cow moo or the T-Rex roar.

DOLLS HOUSES & FURNITURE

Natural Lichee wooden tree houses, structures, blocks and accessories are handmade from recycled products. The wood comes from the unusable treetops & surplus timber from paper production & branches from fruit tree pruning's. All products use only non-toxic & child safe finishes. The ethical commitment to the environment & to the community where production is housed has been central to the manufacturers philosophy since its inception in 2004. Designed with Steiner principles in mind, many parts are moveable providing open ended play. Children engage in play because its is fun and therefore Lichee Treehouses provide a unique experience inspiring creativity and imagination where children will develop their own story scenarios.

OSTHEIMER PLAY

Zoo & WildLife Animals

Visit the land where uncaged wild animals roam freely, in their natural habitat! Choose from wildlife favourites like lions, elephants, zebras and monkeys to more exotic animals like a flamingo, giraffe and pelican to ensure there truly is a wooden toy to delight every child. Add individual animals (sold separately), or purchase one of the other sets available like the Farm Life, Woodland or Arctic Sea Life sets to complete the Ostheimer experience. All Ostheimer wooden figures are made from European alder and maple hardwoods, painted with eco-friendly, non-toxic stains and meet or exceed strict EU safety testing standards.

Trommus Drums

NEW

BULK BUY & SAVE

Since 1998, Trommus has contributed to the setting of new standards for drums used in the teaching of rhythmics. The drums have been developed by a teacher of rhythmics, focussing on sound, quality, and functionality. Based upon his own experience he set out to develop a drum that would meet the needs of the users, students as well as teachers. The result was a very sturdy drum that is easy to use by big and small, in a design that is easily recognized. The drums are inspiring and easy to work with, and are designed for storage within each other. They are handmade in Denmark using natural skin, and contain no harmful substances.

Tuzzles Puzzles

All Tuzzles Puzzles are safety tested by an authorised international testing facility. Large Easy Grip & Knob/Peg puzzles are tested for 18 months +. All other puzzles are tested for 3 years plus to international safety standards. However, content, piece counts and a child's development may determine targeted age usage. This should be at the discretion of the educator.

Puzzles help children develop a range of skills including visual motor skills, proprioception, vestibular, tactile and fine & gross motor. These are all pre-reading essentials and are extremely important in early childhood development.

Consider a successful outcome of achievement as the most important factor when choosing puzzles as children will stay focused and engaged to then attempt more complex puzzles.

Puzzle Complexity Guide:

1 EASY GRIP | 2 PEG | 3 STARTER | 4 RAISED | 5 TRAY | 6 TABLE | 7 LAYERED | 8 FLOOR

1. **Giant Easy Grip Puzzles:** These are the first introduction to puzzles provide easy piece manipulation for younger children, or children needing assistance with coordination and fine-motor control.
2. **Peg Puzzles:** Play a vital role in the development of logical thought, gross and fine motor skills, the understanding of shape and positive and negative space. Starting with one piece peg puzzles and working through to whole picture pegs.
3. **Starter Puzzles:** Next step after single piece Pegs and are the beginning of a child's ability to "see" positive and negative shapes in a more complex form.
4. **Raised Puzzles:** Raised Puzzles sit-up in the tray above the background. This allows small fingers to easily manipulate the pieces – extending fine motor development.
5. **Tray Puzzles:** These puzzles are available in many sizes and piece counts. The tray helps to contain the pieces and gives the child a border within to work. There are many degrees of difficulty within the ranges of puzzles. Subject matter and the child's developing abilities determine the puzzles selected, however, a successful outcome of achievement should be considered most important when choosing the piece count.
6. **Table Puzzles:** Feature pieces which are chunky and easy to manipulate. The puzzles easily fit onto a table top and make great group activities. No borders and freeform shapes give the child different learning experiences. Table Puzzles help develop verbal communication and interaction with other children.
7. **Layered Puzzles:** Puzzles with more than one layer have more than one objective. The multiple layers will increase the difficulty of the task and allow children to understand more than one angle of the concept being taught.
8. **Floor Puzzles:** When piecing together a Floor Puzzle children need to maintain balance, stretch and move to complete the picture. The large chunky pieces make it easier for children to assemble the large puzzles on the floor. Floor Puzzles are fantastic group activities. Children interact as they search for the right pieces. Floor Puzzles help with fine and gross motor development, balance, proprioception, communication and help with many important developmental skills.

LAYERED PUZZLES

Fox Layered Puzzles

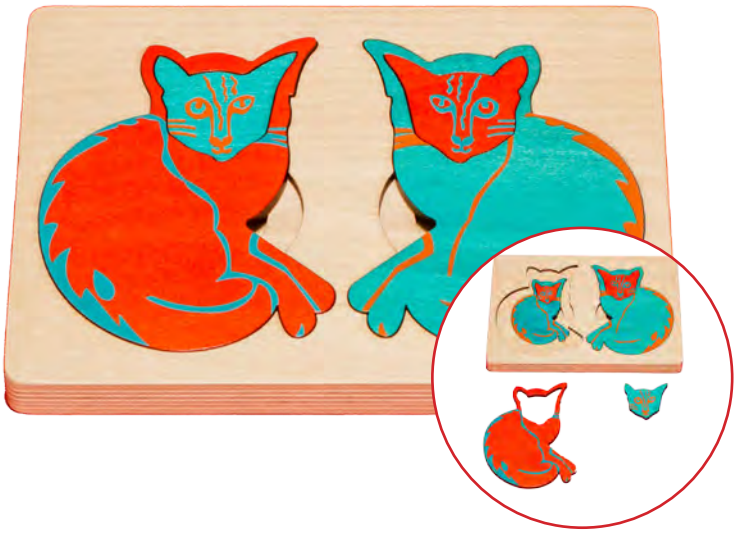

Fox Puzzles of London are unique. The mosaic wooden puzzles are unlike any other puzzle, they are laser cut and handcrafted from the paintings and designs of Melanie Ann Juliette. Melanie's inspiration comes from her life's experiences and looking out from her windows in her purpose built art studio that overlooks her garden, located in Kent, England. Inspiration is also drawn from her travels around the world. The beautiful and dynamic mosaic puzzles allow children and adults to enter a vivid world where life's wonders are portrayed with rhythmic imagination, dazzling colours and individual shapes for everyone to enjoy.

Early Learning Series

In our Early Learning series we explore educational themes; Hand and eye co-ordination, opposites and diminishing size. Vital early vocabulary in a puzzle where you can talk over the differences of animal behaviour between day and night.

To nurture a childs love for water we believe it is important for them to play with it and learn about it. What better way to play than to have a great time pumping water using the included water pump and watching the water flow down the channels that the child has placed themselves. Using special hooks that lock into the wall the kids can then place the water channels strategically in the hooks to try and get the water back into the bucket without wasting any water. With the included pump the kids can learn how to minimize water wastage. The board and hooks are made from HDPE and the stand from aluminium creating a 100% waterproof rust proof product that will last years of play. Bucket not included.

FIRST AID KITS

FASTAID First Aid...for life

NEW NATIONAL 'WHS' FIRST AID LEGISLATION

WHAT IS 'WHS'?
The 'Work Health & Safety Act' (WHS) is the agreed harmonisation of each state and territory's OHS legislation to develop a new national law by Safe Work Australia.

IS 'WHS' GOOD FOR ME?
Yes, WHS simplifies 8 old laws into 1 new national law. This overcomes confusion and entitles all Australian workers to the same work health and safety standards regardless of where they work.

WHO REGULATE'S AND ENFORCES THE NEW 'WHS' LAWS?
Safe Work Australia does not regulate compliance and enforcement of the 'WHS' laws. It is conducted by each state or territory's body such as WorkCover, WorkSafe or SafeWork.

HAVE ALL STATES AND TERRITORY'S IMPLEMENTED THE NEW 'WHS' LAWS?
Yes all apart from WA and VIC. Both are committed to or support the principle of national harmonisation.

WILL FASTAIDS PRODUCTS COMPLY WITH THE WA AND VIC REGULATION REQUIREMENTS?
FastAid's first aid kits are manufactured to cover existing WA and VIC regulations as well as the new WHS code. This provides seamless compliance to all regulations. We recommend you update your first aid kits now to ensure you comply instantly when the new regulation commences in VIC and WA

WHAT DOES 'WHS' MEAN FOR ME?
Essentially, the WHS change means you are or will soon be required to replace or update your current first aid kits.

SO, HOW DO I CHOOSE THE CORRECT 'WHS' COMPLIANT FIRST AID KIT?
Bellbird, with support from FastAid, make it easy for you to comply. Simply choose the first aid kit with the capacity to cover the number of people in your room or service. All persons on site, child and adult must be covered by a first aid kit.
