# LED Aroma Diffuser & Humidifier

Our beautiful aroma diffusers offer many functions that can benefit both health and wellbeing. Unlike traditional oil burners or incense, our aroma diffusers don't require candles or matches and so are a much safer option for your aromatherapy needs. Simply put 2-3 drops of essential oil in the water tank and plug in. This is then dispersed into the air and inhaled to energise or calm, depending on the essential oil chosen. The mist button stops automatically when the water is low. The humidifier generates moisture and negative ions from the water and steam which assist breathing, can provide allergy and sinus relief, aid sleep and also cleanse and purify the air if using oils with antibacterial properties. The aroma diffuser also has a beautiful LED light function, emitting a calming glow which moves through different colours.

Choose from three settings: Press once for 7 alternating, calming LED colours, Press twice to set to one colour or Press and hold for 3 seconds to turn off the LED light. Our aroma diffusers are supplied with AC adaptor and measuring cup. Note: Use essential oils that are safe for children. Some oils are not safe when they settle on the skin and then potentially ingested.

# Portable Play Jars

Portable Play Jars is a concept influenced by a culmination of learning theories. Simply explained, they provide an aesthetically organised and contained learning experience where children are able to decide how and what they want to play with whilst learning the respect and responsibility of returning the resource in the jar complete as they found it for others to use. The sturdy jars are easily transported to their chosen place of play and contain only one type of resource. Portable Play Jars are ideal when stored aesthetically on display and accessible to children at all times.

Portable Play Jar

# LOOSE PARTS PLAY

## Loose Parts = Imagination + Creativity!

Loose parts are materials that can be moved, carried, combined, redesigned, lined up, sorted and taken apart and put back together in multiple ways. They are materials with no specific set of directions that can be used alone or combined with other materials. Loose parts encourage creativity and imagination, can be selected and used by children anyway they choose and encourage open ended learning.
